Earthsea School needs your help

We have come across a great deal and easy way to raise funds for the school through recycling used cartridges. We are working with a company called 'Empties Please'. They collect recycle used ink cartridge and will donate money raised back to us.

It's very simple. All we have to o is collect used ink cartridges and put them in our recycle bin. 'Empties Please' will then collect the bin when it is full and donate money raised straight back to the school with a certificate for us to display. For a full list of ink cartridges that they recycle please visit their website – details below.

The more cartridges we collect the more we can raise. Thank you for your help. You can arrange collection through Lynsay Barrett 07858458555 or drop them off to Buffy or Janet Guy.

Staff and pupils of Earthsea School.

Honingham Parish Council

Draft Minutes of the Meeting of Honingham Parish Council
Wednesday 10th July 2019, 7.00pm at Honingham Village Hall
www.honinghampc.info

Present

	Present	Apologies	Absent		Present	Apologies	Absent
David Bishop (DB) (Chair)	✓			Michael Eales (ME)	✓		
Linda Human (LH) (Vice Chair)	✓			Sam Steggles (SS)	✓		
Roger Human (RH)	✓			Vacancy			
Vacancy				Jordana Wheeler (JW) (Clerk)	✓		
Members of Public in Attendance		10					

1	**To receive apologies for absence**
1.1	No apologies were received, all Councillors were present.
2	**To approve the minutes from meeting held on 12th June 2019**
2.1	The minutes of the meeting held on Wednesday 12th June 2019 were received and read by councillors prior to the meeting. They were agreed by all as a true reflection of that meeting with no amendments and signed by DB.
3	**To receive declarations of interest in items on the agenda and requests for dispensation**
3.1	No declarations of interest were declared in relation to items on the agenda.
4	**To consider the Co-Option of a new Councillor to fill the casual vacancy**
4.1	The Council were in receipt of an application for the casual vacancy of Parish Councillor from Richard Kirkham (RK). RK was not able to attend the meeting but had given prior permission for his application to be considered in his absence. The Council **RESOLVED** to elect RK as Parish Councillor. The appointment is until April 2023.
5	**To report on progress of matters arising from previous meetings (not on the agenda) – Information only**
5.1	Audit documents were successfully published on the website and submitted to the external auditor. Permission is still pending on the proposed installation of the grit bin at the bottom of Colton Road. The proposal for a Weight Restriction through the village is still being investigated. The Speed cameras are currently with Ringland Parish Council. Due to some changes in Councillors there has not been an operational rota for a while. The Clerk is now going to coordinate with the other Councils to get a new rota back up and running for September and ensure all paperwork is in place. All future meeting dates have been booked until March 2020. 2019 dates are on the website.
6	**Finance** **To review and approve the bank reconciliation for June 2019 and approve payments for the following;**
	The bank reconciliation for June 2019 was considered and approved. The schedule of payments and invoices were submitted to the Council by the Clerk to be paid. The Council **RESOLVED** to authorise the payments. DB and LH signed the bank reconciliation & payments schedule.

	Description	Payment Type/Cheque	Amount
6.1	R Human – Reimbursement (maintenance for Bowls Club & Play Area)	100432	£55.36
6.2	D Bishop – Reimbursement (maintenance for Bowls Club)	BACS	£22.95
6.3	Value Products Limited - Play Area Signs	BACS	£30.36
6.4	David Bracey - Play Area inspection invoice	BACS	£96.00
6.5	Donation to Parish Pump towards production costs (as per budget) (S137)	BACS	£200.00
6.6	Clerk's Salary & Expenses (June)	BACS	£327.93

7	**To consider and approve the updated Asset Register**
7.1	The Clerk confirmed a full report would be provided in September as several issues had not yet been resolved. Options for a formal valuation of Council assets were still being researched and further clarification on the shared speed signs was required.

8	**To consider the Play Area Inspection Report and any recommended actions**
8.1	The Council were in receipt of the Play Area Inspection Report. The Clerk summarised the work that had been carried out over the last year on the play area and confirmed the overall rating had improved from medium risk in 2018 to low risk in 2019. The Clerk summarised the recommended repairs from the report. DB confirmed that many of the repairs had already been actioned with just the Rocking Horse requiring some further repairs. The Council **RESOLVED** to accept the report with no further queries.
9	**To consider the option to respond collaboratively with local Parish Councils to larger planning applications and the process by which this would operate**
9.1	The Clerk reported the Council had been approached by a neighbouring Parish Council with the view to have a more joined up approach to responding to planning applications where they impacted on both villages. DB was happy to continue to share information but felt it was more appropriate for the Council to focus on any potential impacts from planning on Honingham. Concerns were expressed about whether a situation may ever occur where opinions of other Councils may go against the opinions of Honingham Parish Council and therefore a joint response may not reflect the concerns of Honingham Parish Council. The Council **RESOLVED** to continue to share information but not to submit joint responses to planning applications.
10	**To consider the Premises License Application for V Depot**
10.1	The Clerk confirmed that the Council is not able to object to the application but is able to ask questions. The application relates to an online business wishing to utilise the storage facility V Depot based at Honingham Thorpe Farm to store and distribute its products. The Clerk summarised questions asked by the Council in relation to a previous License application for the same premises. The Council had no further questions and acknowledged the application.
11	**To consider the Council's process for reporting suspected breaches of planning conditions**
11.1	The Clerk explained that it would be normal practice to report any suspected breaches of planning directly to Broadland District Council to investigate but that the Council had not yet formally agreed the Council's actions should they ever be made aware of a suspected breach. The Council **RESOLVED** to approve the Clerk to report any suspected breaches of planning applications directly to Broadland District Council.
12	**To receive an update on potential costs for installing additional dog waste bins**
12.1	The Clerk confirmed the 2 dog waste bins currently in the village are owned by Broadland District Council (BDC) therefore the Council was not currently charged for emptying them. If the Council wished to install an additional bin, as considered in the Council meeting on 10 April 2019, this would cost approx. £85.00 to purchase the bin and £3.50 a week for it to be emptied (£182.00 for a year). The Clerk reported that although the bin at the Pump is regularly full of dog waste that BDC would not install an additional bin in this location as the waste is already being placed in a bin, albeit not a dog waste bin, therefore there was not a direct problem with waste being left on the floor. The Clerk has requested that the contractors who empty the bins report back over the next month about whether the 2 dog waste bins in the village are being used. If they are regularly empty then there is the option of requesting the bins are moved to locations already known to be more suitable (e.g. by the Pump, in the play area or nearer Mill Lane). The Council opted to remain with the current provision unless there was any further clarification on the use of the bins or a recommendation from BDC to move one.
13	**To receive an update on the Norwich Western Link Liaison Group (RH)**
13.1	RH attended the recent meeting of the Norwich Western Link (NWL) Liaison group at which further details of the preferred route were given. Route C has been chosen and will end at the Wood Lane/Berrys Lane junction. A presentation covered how Norfolk County Council (NCC) came to the decision of route C. RH felt the research and methodology on which the decision was made was thorough. Within the consultation period route D was preferred by responders. All Councillors present were aloud one question during the meeting. There were a lot of questions about the environment. RH raised concerns on the yet undecided junction strategy of the dualling of the A47 and expressed concerns around traffic still choosing to travel from Wymondham to the A47 via Berrys Lane. It is incumbent on Highways England to develop a strategy and plan appropriately for local roads. There are concerns about how traffic will travel to the Food Enterprise Zone from Wood Lane. The NCC

	Cabinet will meet on Monday 15th July to make a final decision on the proposed route. The liaison group is due to meet again in September. DB noted that until final details of the dualling of the A47 were available it is hard to consider impacts any further at this stage. Details on the A47 junctions are expected in September. RH reported on another meeting of local Parish Council representatives who are all affected by both proposed roads and that the group intended to try to impose some leverage on HE to consider their preferences for the proposed A47. It is unknown if this group will have any impact, but they will continue to meet.
14	**To consider options for applying to the Parish Partnership grant scheme**
14.1	The Clerk reported that applications for the Parish Partnership Scheme for local highways improvements via Norfolk County Council was Dec 2019 but to allow the Clerk time to research and prepare a proposal suggestions for ideas were requested. LH proposed a bus shelter on Colton Road. DB proposed improving the footpath leading out of the village to the roundabout on the way to the church which was never finished. **ACTION – Clerk to research costs of proposed highways improvements in relation to making an application to the Parish Partnership Scheme.**
15	**To receive an update on the proposal to install a slide in the play area including quotes**
15.1	The Clerk confirmed no planning permission would be needed to install a slide in the play area as long as it was under 4 metres high. Four companies have been contacted for quotes for similar slides suitable for 4-12 year olds. One company indicated that installation costs would be high for one item. Quotations are still pending. It was confirmed the Parish Partnership Scheme could not be used for the installation of the slide. The Clerk is continuing to research grants but requires a final quote to make an application.
16	**To consider any highway maintenance to be reported to the Streetscene Inspectors**
16.1	The Clerk requested suggestions for highways maintenance in the village which could be completed by the Streetscene Inspectors. The following was suggested; • Footpath between Tud Lane and 8 Norwich Road is damaged by tree routes making it uneven and dangerous to walk along, particularly in the dark. • Continued problems with flooding at the bottom of Mill Lane, requests to have the gullies and pipes cleared again. • Gullies along the sides of the village green are blocked with silt and debris and require clearing. • Verges are overgrown at the top of Colton Road turning left onto Mattishall Road towards Norwich impairing visibility. • Footpath leading from the roundabout towards the church is blocked by overgrown hedges making it difficult to walk down. **ACTION – Clerk to report highways maintenance issues to Streetscene Inspectors.**
17	**Opportunity for Public Participation**
17.1	A parishioner asked if the Parish Partnership Scheme could be used to purchase permanent flashing speed signs. The Clerk confirmed that an application for permanent signs is unlikely to be approved as temporary signs are preferred.
17.2	A parishioner enquired whether there would be further opportunities to object to the proposed route of the Norwich Western Link. The Council were not aware of any further opportunities to object but confirmed there would be further opportunities to consider and make comment on the dualling of the A47 and the junctions which would link the two roads.
17.3	It was queried if the person operating the V Depot building also held the correct license to be able to store and distribute alcohol. It was unknown from the application the Council were in receipt of the extent of all licenses held in relation to V Depot.
17.4	A parishioner queried how it would be possible to know whether a breach of planning had occurred and where to find details of planning applications. The Clerk confirmed all details of both current and historic applications were available on the Broadland District Council website for anyone to access.

17.5	A parishioner expressed concern over health and safety as they were unaware that the bin at the Pump was being used by people to dispose of dog waste. It was suggested signs were put in place by the bin requesting dog waste was not placed in the normal bin.
17.6	Details of the Barn Dance taking place at the village hall in September was given, tickets are still available. Please refer to the posters around the village or the Council facebook page for further details.
17.7	A parishioner requested a lid be placed on the bin in the play area as it attracted wasps in the summer months and becomes full of water when it rains.
17.8	A parishioner queried whether local land owners/farmers were able block public rights of way. It was indicated that one public right of way in the village was currently not accessible.
18	**To confirm the date of the next meeting – Wednesday 11th September 2019, 7pm.**
18.1	The next meeting will take place on Wednesday 11th September, 7pm in Honingham village hall. There will be no meeting in August.

The public meeting closed at 8.00 pm.

Are You Interested in Becoming a Parish Councillor?

Honingham Parish Council currently has a vacancies for a Councillor. If you would like to contribute to the community, are passionate about representing the views of local people or have personal or professional skills which would benefit the Council why not consider becoming a Parish Councillor.

Being a Councillor can be very rewarding. Meetings are once a month and usually last an hour. Between meetings you are likely to spend 1-2 hours a week supporting the Council. This could be reading documents such as planning applications, attending meetings as a representative of the Council, volunteering in the village or speaking with parishioners. Councillors are also responsible for setting the Parish Precept and ensuring the Council are getting good value for money and managing the Council finances effectively.

Currently some of Honingham's key issues are the dualling of the A47, the proposed Norwich Western Link, planning matters relating to the parish, the Food Enterprize Zone and the Greater Norwich Local Plan, ongoing maintenance of village assets and promoting use of village facilities such as the Bowls Club.

Visit www.honinghampc.info for more information on what the Parish Council does. Why not attend our next meeting on Wednesday 11th September, 7pm, in the village hall to find out more about the Parish Council. If you are interested please email clerk.honinghampc@gmail.com

East Tuddenham Jubilee Hall Newsletter July 2019

A.G.M.

This was held on 3rd July following the Parish Assembly.

The Chairman reported that the Hall continues to attract regular village users supporting a variety of activities including badminton, bingo, bowls, book club, craft club, friendship club whilst the new art classes and yoga and keep fit are going well too.

The Hall is very popular with people from outside our local community due to its size, stage, balcony, air conditioning, kitchen and bar facilities.
It looks clean and well cared for and always impresses newcomers.
Indeed the hiring of the Hall by users from outside our community provides the main source of income.

Since the last AGM we have upgraded all the windows and doors to make the building more energy efficient, funded by a grant, a generous donation from the East Tuddenham Charities and money from our own reserves. This improvement to the building has enhanced its appearance and also led to positive feedback regarding noise reduction.

On the playing field we have renewed the felt roof on the Ray Mortimer Pavilion following storm damage and replaced the rusting 5-a-side goals with new posts and nets.

The Hall is 36 years old and maintenance and repair have become increasingly significant. But this comes at a cost, which is why we need the support of the village and other groups within it to ensure it remains a central part of our community for now and future generations.

Our financial year ends at 31st March each year and our treasurer reported that despite hefty expenditure we have once again recorded a profit for the year. The array of solar panels help by continuing to generate a healthy income due to the feed-in tariff.

Thanks were then offered to everyone who supports the Hall, the committee and any events.
Without this encouragement we would not have been able to achieve what we have and the place would not be what it is.

The opportunity to ask questions was then provided, but there were none.
